

Delivering Outdoor
Education

ALP The Lodge is located in Stockbury, Kent. The lodge facilities are exclusive to ALP Schools and activities are led by fully trained ALP Schools staff who are part of our growing team.

For ALP Sittingbourne and Pierview Academy The Lodge forms part of our educational offer and outdoor space for learners. For all other ALP Schools, the Lodge is available for day trips and residential activity, including overnight camping stays.

Swimming at The Lodge

- - - - X

The Lodge has a heated outdoor swimming pool and changing facility. We have a qualified swimming teacher who is able to progress learners through a swimming programme and offer swimming as an enrichment activity.

We are very thankful for funding from the STA and up for Swimming campaign for funding the training of our swimming teacher. The STA is an educational charity dedicated to 'preserving human life by the teaching of swimming, lifesaving and survival techniques', an ethos that we strive to follow through our swimming lessons

Forest School & PSHE.

- - - - X

We are developing our forest school provision. As we move towards having trained forest school instructors, we currently offer opportunities for outdoor learning, teaching about the outdoors, but also providing an opportunity for connecting with the outdoors via

nurturing, team building activities and the opportunity to breathe in the fresh air and explore and be creative. We also link the Lodge to our PSHE curriculum, offering PSHE activities in the outdoors

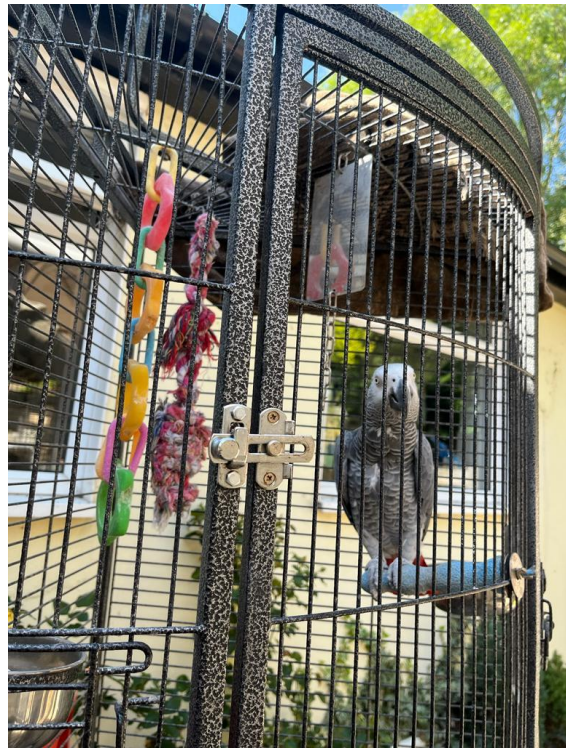

Occupational Studies in the Outdoors .

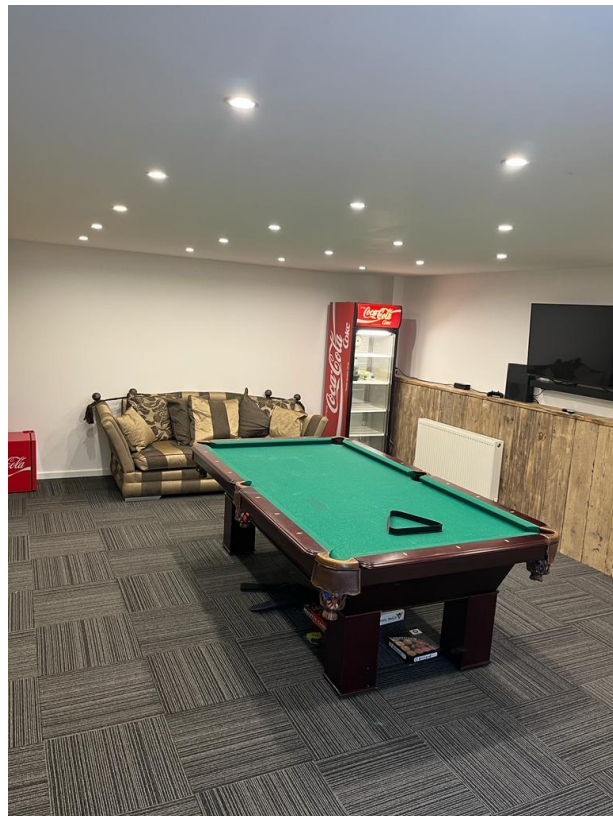

- - - - X

We offer structured learning where learners create portfolios, working towards recognised qualifications as well as fun based enrichment activities in:

Animal Care	Employability & Social Development
Land Based & Gardening Activity	Cookery

Learners work towards NCFE entry level to Level 2 qualifications in Occupational Studies in the workplace. With 14 units of study available, secondary and post-16 students can work towards an award, certificate or diploma. Soon we also hope to be delivering basic motor vehicle skills in the Lodge's workshop.
